

# UNITED STATES DEPARTMENT OF EDUCATION OFFICE OF INSPECTOR GENERAL

November 17, 2014

TO: Thomas P. Skelly

Delegated to perform the functions and duties

of the Chief Financial Officer

FROM: Patrick J. Howard /s/

Assistant Inspector General for Audit

SUBJECT: FINAL AUDIT REPORTS

Fiscal Years 2014 and 2013 Closing Package Financial Statements

U.S. Department of Education

ED-OIG/A1700003

Attached are the subject final reports on the results of the audit of the closing package financial statements of the U.S. Department of Education for fiscal years 2014 and 2013. The reports should be read in conjunction with the Department's closing package financial statements and notes to fully understand the context of the information contained therein. The auditors have discussed the reports with you or appropriate members of your staff at various times throughout the audit.

We appreciate the cooperation given CliftonLarsonAllen, LLP and the OIG, during the audits. Should you have any questions concerning the report, please contact me or Greg Spencer at (202) 245-6949 or (202) 245-6015, respectively.

Inspector General United States Department of Education

Secretary
United States Department of Education

#### **Report on the Closing Package Financial Statements**

We have audited the accompanying Closing Package Financial Statement Report (herein referred to as the closing package financial statements) of the United States Department of Education (the Department), which comprise:

- the Closing Package Financial Statement Report Balance Sheet as of September 30, 2014 and 2013
- the related Closing Package Financial Statement Reports Statement of Net Cost and Statement of Changes in Net Position, for the years then ended
- the accompanying Financial Report (FR) Notes Report (except for the information in the FR Notes Report entitled "Threshold")
- the accompanying Additional Note No. 1
- the accompanying Trading Partner Summary Note Report Balance Sheet as of September 30, 2014 and 2013
- the related Trading Partner Summary Note Report Statement of Net Cost and Statement of Changes in Net Position for the years then ended

#### Management's Responsibility for the Closing Package Financial Statements

The Department's management is responsible for the preparation and fair presentation of these closing package financial statements in accordance with accounting principles generally accepted in the United States of America (U.S.) and the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the closing package financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express an opinion on these closing package financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the U.S.; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Office of Management and Budget (OMB) Bulletin No. 14-02, *Audit Requirements for Federal Financial Statements* (OMB Bulletin 14-02). Those standards and OMB Bulletin 14-02 require that we plan and perform the audit to obtain reasonable assurance about whether the closing package financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the closing package financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the closing package financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the agency's preparation and fair presentation of the closing package financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the agency's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the closing package financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Opinion on the Closing Package Financial Statements

In our opinion, the closing package financial statements referred to above present fairly, in all material respects, the financial position of the United States Department of Education as of September 30, 2014 and 2013, and its net costs and changes in net position for the years then ended, in accordance with accounting principles generally accepted in the U.S.

#### Emphasis of Matter

As discussed in Additional Note No. 1 to the closing package financial statements, the accompanying closing package financial statements were prepared to comply with the requirements of the United States Department of the Treasury's *Treasury Financial Manual* Volume I, Part 2, Chapter 4700 (*TFM Chapter 4700*) for the purpose of providing financial information to the United States Department of the Treasury and the U.S. Government Accountability Office (GAO) to use in preparing and auditing the *Financial Report of the U.S. Government*, and are not intended to be a complete presentation of the consolidated balance sheets of the Department as of September 30, 2014 and 2013, and the related consolidated statements of net costs and changes in net position, and combined statements of budgetary resources (hereinafter referred to as "general purpose financial statements") for the years then ended. Our opinion is not modified with respect to this matter.

#### Other Matters

#### Opinion on the General Purpose Financial Statements

We have audited, in accordance with auditing standards generally accepted in the U.S.; the standards applicable to financial audits contained in *Government Auditing Standards*; and OMB Bulletin 14-02, the general purpose financial statements of the United States Department of Education as of September 30, 2014 and 2013, and our report thereon, dated November 14, 2014, expressed an unmodified opinion on those financial statements.

<u>Required Supplementary Information and Required Supplementary Stewardship Information</u>
Accounting principles generally accepted in the U.S. issued by the Federal Accounting Standards Advisory Board (FASAB) require that the information in Other Data Report No. 8, except for the information in the Other Text Data and the information entitled "Threshold" (which are discussed below), be presented to supplement the financial statements. Such information, although not a part of the financial statements, is required by FASAB, which considers it to be

an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the Required Supplementary Information and Required Supplementary Stewardship Information in accordance with auditing standards generally accepted in the U.S., which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the closing package financial statements, and other knowledge we obtained during our audit of the closing package financial statements. We do not express an opinion or provide any assurance on this information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The Department's management has omitted Management's Discussion and Analysis and the combining Schedule of Budgetary Resources that accounting principles generally accepted in the U.S. issued by FASAB require to be presented to supplement the financial statements. Such missing information, although not a part of the closing package financial statements, is required by FASAB who considers it to be an essential part of financial reporting for placing the general purpose financial statements in an appropriate operational, economic, or historical context. Our opinion on the closing package financial statements is not affected by this missing information.

#### Other Information

Our audit was conducted for the purpose of forming an opinion on the closing package financial statements as a whole. The information included in the Other Data Report Nos. 15 and 16; the information in the section entitled Other Text Data of Other Data Report No. 8; and the information in the section entitled "Threshold" in Other Data Report No. 8; the information in the sections entitled "Threshold" in FR Notes Report Nos. 4A, 8, 11, 15, and 19; the information in the Closing Package Line Reclassification Summary Report – Balance Sheet; and the information in the Closing Package Line Reclassification Summary Reports – Statement of Net Cost and Statement of Changes in Net Position are presented for purposes of additional analysis in accordance with *TFM Chapter 4700* and are not a required part of the closing package financial statements. This information has not been subjected to the auditing procedures applied in the audit of the closing package financial statements and accordingly, we do not express an opinion or provide any assurance on it.

#### Restriction on the Use of the Report on the Closing Package Financial Statements

This report is intended solely for the information and use of Department's management, the United States Department of the Treasury, OMB, and GAO in connection with the preparation and audit of the *Financial Report of the U.S. Government* and is not intended to be and should not be used by anyone other than these specified parties.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards* and OMB Bulletin 14-02, we have also issued a report dated November 14, 2014 that discusses our consideration of the Department's internal control over financial reporting and the results of our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters that are required to be reported under *Government Auditing Standards*. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* and OMB Bulletin 14-02 in considering the Department's internal control and compliance, and should be read in

conjunction with this report in considering the results of our audit of the closing package financial statements.

Our audit of the general purpose financial statements of the Department, as of and for the year ended September 30, 2014, disclosed one significant deficiency in internal control over financial reporting and one instance of noncompliance, described below, that are required to be reported in accordance with *Government Auditing Standards* and OMB Bulletin No. 14-02.

# Significant deficiency: Department and Federal Student Aid Management Need to Mitigate Persistent Information Technology Control Deficiencies

Due to the unique requirements of the Department's grant, loan and administrative business activities, the Department manages its general support system and core financial management system and oversees a large portfolio of Federal Student Aid (FSA) or contractor owned information systems. The third party servicers who manage FSA's general support systems and contractor owned and contractor operated financial systems are monitored by FSA management through the use of Service Level Agreements and third party independent reviews. We continued to identify control deficiencies in the areas of security management, personnel security, access controls, and configuration management across these systems. These deficiencies can increase the risk of unauthorized access to the Department's systems used to capture, process, and report financial transactions and balances, affecting the reliability and security of the data and information.

# **Noncompliance:** Noncompliance with the timing requirement of Title 31 United States Code (U.S.C.) Section 3716(c)(6)

Title 31 U.S.C. Section 3716(c)(6) states that any Federal agency that is owed by a person a past due, legally enforceable nontax debt that is over 180 days delinquent, including nontax debt administered by a third party acting as an agent for the Federal Government, shall notify the Secretary of the Treasury of all such nontax debts for purposes of administrative offset under this subsection.

The Digital Accountability and Transparency Act (DATA Act), Public Law 113-101, was signed into law on May 9, 2014. Section 5 of the DATA Act amends Title 31 U.S.C. Section 3716(c)(6) and now requires agencies to notify the Secretary of the Treasury of valid, delinquent nontax debts that are over 120 days delinquent – 60 days earlier than the previous 180 days requirement – for the purpose of administrative offset. Section 5 of the DATA Act also added a new requirement, according to which "the Secretary of the Treasury shall notify Congress of any instance in which an agency fails to notify the Secretary [of the Treasury] as required" by 31 U.S.C. Section 3716(c)(6)(A).

The Department and FSA have not changed their loan servicing procedures and internal processes to comply with the new 120 days requirement. Further, the existing loan servicing procedures and internal processes do not notify the Secretary of the Treasury of past due, legally enforceable nontax debts once

-

<sup>&</sup>lt;sup>1</sup> The official U.S.C. has not yet been amended to reflect the statutory change due to the passage of the DATA Act.

they become over 180 days past due. Instead, notification is performed once a year when most past due, legally enforceable nontax debts are significantly older than 180 days delinquent. Therefore, the Department and FSA are noncompliant with the timing requirement of 31 U.S.C. Section 3716(c)(6) as of September 30, 2014.

# Report on Internal Control over Financial Reporting Specific to the Closing Package Financial Statements

In planning and performing our audit of the closing package financial statements as of and for the year ended September 30, 2014, we also considered the Department's internal control over the financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the closing package financial statements, but not for the purpose of expressing an opinion of the effectiveness of the Department's internal control. Accordingly, we do not express an opinion on the effectiveness of the Department's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Department's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control for the closing package financial statements was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses.

#### Report on Compliance Specific to the Closing Package Financial Statements

As part of obtaining reasonable assurance about whether the Department's closing package financial statements are free from material misstatement, we also performed tests of its compliance with certain provisions of *TFM Chapter 4700*. However, providing an opinion on compliance with those provisions was not an objective of our audit of the closing package financial statements, and accordingly, we do not express such an opinion. The results of our tests of compliance with *TFM Chapter 4700* disclosed no instances of noncompliance or other matters that are required to be reported in accordance with *Government Auditing Standards*.

#### Purpose of the Other Reporting Required by Government Auditing Standards

The purpose of the communication provided in the Other Reporting Required by *Government Auditing Standards* section is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the Department's internal control or on compliance. This communication is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the

Department's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

#### UNITED STATES DEPARTMENT OF EDUCATION

#### OFFICE OF THE CHIEF FINANCIAL OFFICER

**MEMORANDUM** 

NOV 1 4 2014

TO:

Patrick J. Howard

Assistant Inspector General for Audit

FROM:

Thomas P. Skelly Throng 7. 18hil

Delegated to Perform the Functions and Duties of the Chief Financial Officer

SUBJECT:

DRAFT AUDIT REPORTS

Fiscal Years 2014 and 2013 Closing Package Financial Statements

U.S. Department of Education

ED-OIG/A1700003

Please convey our sincere thanks and appreciation to everyone on your staff who worked diligently on this financial statement audit. The Department reviewed the draft Fiscal Years 2014 and 2013 Closing Package Financial Statements Audit Report. We concur and agree with the Independent Auditors' Report.

Again, please convey our appreciation to everyone on your staff whose efforts permitted the Department to complete the audit within the established timeframe.

Please contact Gary Wood, Director, Financial Management Operations, at (202) 245-8118 with any questions or comments.

Line	Question	Answer
1	Describe any significant events or transactions that occurred after the date of the Balance Sheet but before the issuance of agency¿s audited financial statements that have a material effect on the financial statements and, therefore, require adjustments or disclosure in the statements.	None
2	Describe any departures from U.S. Generally Accepted Accounting Procedures (GAAP).	
3	When applying the general rule of the Statements of Federal Financial Accounting Standards (SFFAS) No. 7, par.  48, describe the specific potential accruals that are not made and the practical and inherent limitations affecting the accrual of taxes and duties.	
4	Describe any change in accounting if a collecting entity adopts accounting standards that embody a fuller application of accrual accounting concepts that differ from that prescribed by SFFAS No. 7,	
5	par. 48.  List all of the agency's components for which balances and activities are not combined into the agency's financial statements, and, therefore, are represented in the GFRS data.	
6	List all of the agency's components for which balances and activities are combined into the agency's financial statements, and, therefore, are represented in the GFRS data.	The components whose balances and activities are combined into the financial statements and presented in the GFRS data are Federal Student Aid (FSA), Office of Elementary and Secondary Education (OESE), Office of Special Education and Rehabilitative Services (OSERS), Office of Career, Technical, and Adult Education (OCTAE), Office of Postsecondary Education (OPE), Institute of Education Sciences (IES), Office of English Language Acquisition (OELA), Office of Innovation and Improvement (OII), Office of Management, Office for Civil Rights (OCR), as well as Hurricane Education Recovery (HR) activities.
7	Describe any additional significant accounting policies specific to the agency not included in GFRS Module GF006 - FR Notes.	
8	Provide any other relevant information pertaining to the Federal Reserve Earnings.	
9	Describe the nature of the related party relationship and transactions pertaining to the amount in the ,Other Notes Info, tab, Related party receivables' line.	
10	Describe the nature of the related party relationship and transactions pertaining to the amount in the "Other Notes Info " tab," Related party payables" line.	
11	Describe the "Other Notes Info" tab, "Related party operating revenue" transactions along with the related party relationship and include transactions with zero or nominal balances, guarantees, and other terms. Also, describe changes in related party terms.	
12	Describe the "Other Notes Info" tab, "Related party net cost of operations" transactions along with the related party relationship and include transactions with zero or nominal balances, guarantees, and other terms. Also, describe changes in related party terms.

Line	Question	Answer
1	Describe the nature of the amount in the line item "other cash - not restricted."	
3	If the cash is restricted because it is non-entity, state the entity for which the cash is being held.	Cash and Other Monetary Assets consist of assets of FFEL Guaranty Agency (GA) Federal Funds, which are held by the GAs, but owned by the federal government.
4	Is the reported restricted cash being held in a financial institution? If yes, is it a Treasury designated bank?	The assets of Federal Funds held by the GAs consist of cash, short term Treasury securities, plant, property, and equipment, and other miscellaneous assets. Cash in Federal Funds is required to be held in interest bearing accounts with no designation of a specific financial institution.
5	If the agency has restricted cash, is the restricted cash invested? If yes, is it invested in the Bureau of the Fiscal Service (BFS)security, agency security, and/or non-federal security?	
6	Describe the nature of the amount in the line item "Foreign currency."	
7	Disclose any restrictions on the use (for example, by law, regulation, or agreement) of the amount in the line item "Foreign Currency."	
8	Disclose the method of exchange rate used on the financial statement date (Treasury exchange rate or prevailing market rate).	
9	Provide additional details describibg the nature and cause of reconciling items reported in Section C, lines 2 through 6.	
10	Provide any other relevant information pertaining to this note. At a minimum, describe briefly the significant accounting policies pertaining to this note.	Cash and Other Monetary Assets consist of guaranty agency reserves that represent the federal government's interest in the net assets of state and nonprofit FFEL Program guaranty agencies. Guaranty agency reserves include initial federal start-up funds, receipts of federal reinsurance payments, insurance premiums, guaranty agency share of collections on defaulted loans, investment income, administrative cost allowances, and other assets.

The Department administers the William D. Ford Federal Direct Student Loan (Direct Loan) Program, to help students finance the costs of higher education. The Direct Loan Program, authorized by the Student Loan Reform Act of 1993, enables the Department to make loans directly to eligible undergraduate and graduate students and their parents through participating schools. Under this program, loans are made to individuals who meet statutorily set eligibility criteria and attend eligible institutions of higher education-public or private two- and four-year institutions, graduate schools, and vocational training schools.

The Federal Credit Reform Act of 1990 (Credit Reform Act) underlies the proprietary and budgetary accounting treatment of direct loans. The long-term cost to the government for direct loans, other than for general administration of the programs, is referred to as "subsidy cost". Under the Credit Reform Act, subsidy costs for loans obligated beginning in fiscal year 1992 are estimated at the net present value of projected lifetime costs in the year the loan is obligated. Subsidy costs are then revalued annually through the re-estimate process.

The Ensuring Continued Access to Student Loans Act of 2008 (ECASLA) amended the FFEL Program to authorize the Secretary to purchase or enter into forward commitments to purchase FFEL loans. This temporary loan purchase authority was to expire on September 30, 2009; however, Public Law (P.L.) 110-350 extended the authority through September 30, 2010. The Department has implemented three activities under this temporary loan purchase authority. These activities are: (1) loan purchase commitments under which the Department purchases loans directly from FFEL lenders; (2) loan participation purchases in which the Department purchases participation interests in FFEL loans; and (3) an Asset-Backed Commercial Paper (ABCP) Conduit in which the Department enters into a forward commitment to purchase FFEL loans from a conduit, as needed, to allow the conduit to repay short-term liquidity loans used to re-finance maturing commercial paper.

The Teacher Education Assistance for College and Higher Education Grant (TEACH) Program was implemented beginning July 1, 2008. This program, added to the HEA by the College Cost Reduction and Access Act (CCRAA), awards annual grants to students who agree to teach in a high-need subject area in a public or private elementary or secondary school that serves low-income students.

Estimates for credit program receivables and liabilities contain assumptions that have a significant impact on the financial statements. The primary components of this assumption set include, but are not limited to, collections (including loan consolidations), repayments, default rates, prevailing interest rates and loan volume. Actual loan volume, interest rates, cash flows and other critical components used in the estimation process may differ significantly from the assumptions made at the time the financial statements are prepared. Minor adjustments to any of these components may create significant changes to the estimate. The Department estimates all future cash

Question

Line

#### 1 Provide any other relevant information pertaining to this note. At a minimum, describe briefly

the significant accounting policies pertaining to this note.

#### Answer

The Department administers the Federal Family Education Loan (FFEL) Program, to help students finance the costs of higher education. The FFEL Program, initially authorized by the Higher Education Act of 1965 (HEA), as amended, cooperates with state and private nonprofit Guaranty Agencies to provide loan guarantees and interest subsidies on loans made by private lenders to eligible students. Under this program, loans are made to individuals who meet statutorily set eligibility criteria and attend eligible institutions of higher education-public or private two- and four-year institutions, graduate schools, and vocational training schools.

The Federal Credit Reform Act of 1990 (Credit Reform Act) underlies the proprietary and budgetary accounting treatment of guaranteed loans. The long-term cost to the government for loan guarantees, other than for general administration of the programs, is referred to as "subsidy cost" Under the Credit Reform Act, subsidy costs for loans obligated beginning in fiscal year 1992 are estimated at the net present value of projected lifetime costs in the year the loan is obligated. Subsidy costs are then revalued annually through the re-estimate process.

Estimates for credit program receivables and liabilities contain assumptions that have a significant impact on the financial statements. The primary components of this assumption set include, but are not limited to, collections (including loan consolidations), repayments, default rates, prevailing interest rates and loan volume. Actual loan volume, interest rates, cash flows and other critical components used in the estimation process may differ significantly from the assumptions made at the time the financial statements are prepared. Minor adjustments to any of these components may create significant changes to the estimate. The Department estimates all future cash flows associated with the Direct Loan, FFEL and TEACH Programs. Projected cash flows are used to develop subsidy estimates. Subsidy cost can be positive or negative; negative subsidies occur when expected program inflows of cash (e.g., repayments and fees) exceed expected outflows. Subsidy cost is recorded as the initial amount of the loan guarantee liability when guarantees are made or as a valuation allowance to government-owned loans and interest receivable (i.e., direct and defaulted guaranteed loans).

The Department uses a computerized cash flow projection Student Loan Model to calculate subsidy estimates for the Direct Loan, FFEL and TEACH Programs. Each year, the Department re-evaluates the estimation methods related to changing conditions. The Department uses a probabilistic technique to forecast interest rates based on different methods to establish the relationship between an event's occurrence and the magnitude of its probability. The Department's approach estimates interest rates under numerous scenarios and then bases interest rates on the average interest rates weighted by the assumed probability of each scenario occurring. Probabilistic methodology facilitates the modeling of the Department's unique loan programs.

For each program, cash flows are projected over the life of the loans, aggregated by loan type, cohort year and risk category. The loan's cohort year represents the year a

Line	Question	Answer
1	Provide the physical quantity information by category for multiuse heritage assets that are included in the "Line Item Notes" tab of this note (SFFAS No. 29, par 25).	
2	For early implementers of SFFAS 42, provide a general description of what constitutes general PP&E impairment. Include a general description of the PP&E remaining in use and the nature of the impairment (SFFAS44, par. 26a).	
3	Provide any other relevant information pertaining to this note and any material changes from the prior fiscal years' depreciation methods and capitalization thresholds. In addition, describe briefly the significant accounting policies pertaining to this note.	The Department capitalizes single items of property and equipment with a cost of \$50,000 or more that have an estimated useful life of two years or more. Additionally, the Department capitalizes bulk purchases of property and equipment with an aggregate cost of \$500,000 or more. A bulk purchase is defined as the purchase of like items related to a specific project, or the purchase of like items occurring within the same fiscal year that have an estimated useful life of at least two years. Property and equipment are depreciated over their estimated useful lives using the straight-line method of depreciation. Internal Use Software meeting the above cost and useful life criteria is also capitalized. Internal Use Software is either purchased off the shelf, internally developed, or contractor developed solely to meet the Department's needs.

Line Description	Question	Answer
Line Item Notes - Advances and prepayments (2013 - SEPTEMBER)	Please provide explanations for any amounts that have changed by 10% or more and or greater than 500,000 between the current fiscal year and prior fiscal year. (Unaudited)	The decrease is primarily due to the winding down of ARRA and Education Jobs Fund appropriations.
Line Item Notes - Other assets (2014 - SEPTEMBER)	Please provide explanations for any amounts that have changed by 10% or more and or greater than 500,000 between the current fiscal year and prior fiscal year. (Unaudited)	The increase is due to an increase in in-process invoices for FFEL interest benefits.
Line Item Notes - Other assets (2013 - SEPTEMBER)	Please provide explanations for any amounts that have changed by 10% or more and or greater than 500,000 between the current fiscal year and prior fiscal year. (Unaudited)	The increase is due to an increase in in-process invoices for FFEL interest benefits.

Tab: Text Data		
Line	Question	Answer
1	Provide a description of advances and prepayments on the "Line Item Notes" tab for line 1.	Advances and Prepayments consist of payments made to grant recipients in advance of their expenditures and in-process invoices for interest benefits and special allowances for the FFEL Program.
2	Provide a description and related amounts for balances that exceed \$1 billion in the line titled "Other Assets" on the "Line Item Notes" tab.	
3	Provide the amounts that are designated as either non-hedging or hedging instruments.	
4	Provide any other relevant information pertaining to this note. At a minimum, describe briefly the significant accounting policies pertaining to this note.

Line	Question	Answer
1	Provide the following information as it relates to the future policy benefits for noncancelable and renewable life insurance (other than whole life) (SFFAS No. 5, par. 110, table 9): a description of each component of the liability for future policy benefits, an explanation of its projected use, and any other potential uses.	
2	For pension plans that differ from the Civil Service Retirement System (CSRS), the Federal Employee Retirement System (FERS), and the Military Retirement System (MRS), describe how and why the assumptions differ from one of those plans (SFFAS No. 5, par. 67).	
3	Provide the long-term projection of the significant economic assumptions used in determining pension liability and the related expense (example of assumptions: actuarial, economic, interest rate, and trend).	
4	Provide a description of the changes in the significant assumptions used in determining pension liability and the related expense (SFFAS No. 33, par.19).	
5	Provide the long-term projection of the significant economic assumptions used in determining the postretirement health benefits liability and the related expense (example of assumptions: actuarial, economic, interest rate, and trend).	
6	Provide a description of the changes in the significant assumptions used in determining the postretirement health benefits liability and the related expense (SFFAS No. 33, par. 19).	
7	Provide the reason for significant changes in the actuarial liability for the DOD Military Retirement Fund for the current FY (DOD only). Describe those that relate to significant changes in assumptions, if any (SFFAS No. 33, par. 19).	
8	Provide the reason for significant changes in the actuarial liability for the DOD Medicare Eligible Retiree Health Care Fund (DOD only). Describe those that relate to significant changes in assumptions, if any (SFFAS No. 33, par. 19).	
9	Provide the reason for significant changes in the actuarial liability for veterans compensation and burial benefits (VA only). Describe those that relate to significant changes in assumptions, if any (SFFAS No. 33, par. 19).	
10	Provide the source(s) of the information entered for Line Item Notes tab lines 4, 5, and 6.	
11	Provide the source(s) for the components of pension expense entered in Section A.	
12	Provide the source(s) for the interest rate for pension expense entered in Section B.	
13	Provide the source(s) for the components of postretirement expense entered in Section C.	
14	Provide the source(s) for the interest rate for pension expense entered in Section D.	
15	Provide the source(s) for workers' compensation benefits entered in Sections N and O (to be completed only by DOL).

Line Description	Question	Answer
Line Item Notes - Deferred revenue (2014 - SEPTEMB	ER) Please provide explanations for any amounts that have changed by 10% or more and or greater than 500,000 between the current fiscal year and prior fiscal year. (Unaudited)	The increase is primarily the result of an increase of in process collections of negative special allowance.
Line Item Notes - Accrued wages and benefits (2014 - SEPTEMBER)	Please provide explanations for any amounts that have changed by 10% or more and or greater than 500,000 between the current fiscal year and prior fiscal year. (Unaudited)	The decrease is primarily due to a reduction in wage base pay.
Line Item Notes - Grant payments due to State and loc governments and others (2014 - SEPTEMBER)	Please provide explanations for any amounts that have changed by 10% or more and or greater than 500,000 between the current fiscal year and prior fiscal year. (Unaudited)	These balances represent estimated liabilities for expenditures incurred by grantees prior to their receiving grant funds to cover the expenditures. The increase reflects the impact of the cumulative disbursement of funds originally made available by the American Recovery and Reinvestment Act of 2009 and normal changes in the estimate of the amount based on statistical sampling.
Line Item Notes - Deposit funds (2014 - SEPTEMBER)	Please provide explanations for any amounts that have changed by 10% or more and or greater than 500,000 between the current fiscal year and prior fiscal year. (Unaudited)	The increase is due to a change in deposit account collections.

Line	Question	Answer
1	Describe the restatements to the prior year that resulted from correcting errors that occurred in the prior year (data reported in Sections A and B).	This amount represents an adjustment caused by a negative Treasury warrant.
2	Describe any errors that occurred in years preceding the prior year that adjusted the prior- year beginning net position (data reported in Sections C and D).	
3	Describe any immaterial errors that occurred in the prior period(s) that were corrected against the current-year operations (data reported in Sections E and F).	
4	Describe any reclassifications/adjustments of the previous year (2011) reporting in this year's (2012) Closing Package (data reported in Section G). Exclude amounts reported as restatements in Section A and B.	
5	Describe the adjustments to the current-year or prior-year beginning net position that resulted from changes in accounting principles as reported on the Reclassified Statement of Changes in Net Position, line 2.1 and/or line 3.1.	
6	Provide any other relevant information pertaining to this note. At a minimum, describe briefly the significant accounting policies pertaining to this note.

Line	Question	Answer
1	Provide the nature of the isurance contingencies.	
2	Provide the nature of the litigation contingencies, including the range of loss for probable liabilities.	
3	Provide the nature of the litigation contingencies including the range of loss for reasonably possible contingencies.	The Department is involved in various lawsuits incidental to its operations. The Treasury Judgment Fund pays judgments resulting from litigation against the Department. In the opinion of management, the ultimate resolution of pending litigation will not have a material effect on the Department's financial position.
4	Provide the total claim amount for cases assessed as "unable to determine" if significant. Also, provide a statement on whether this materiality affects the financial statements.	
5	Describe the other claims that may derive from treaties or international agreements.	
6	Provide any other relevant information pertaining to this note. At a minimum, describe briefly the significant accounting policies pertaining to this note.

Line	Question
1	Describe the lessee's leasing arrangements including the basis on which contingent rental payments are determined, the existence and terms of renewal or purchase options, escalation clauses and restrictions imposed by lease agreements.
2	Provide any other relevant information pertaining to this note. Explain any amounts listed in Section D in detail and reference the note, and/or location, in the agency¿s Performance and Accountability Report (PAR). At a minimum, describe briefly the significant accounting policies pertaining to this note.

#### Answer

The Department leases office space from the General Services Administration (GSA). The lease contracts with GSA for privately and publicly owned buildings are operating leases. Future lease payments are not accrued as liabilities, but expensed as incurred.

### Line Question 1 Provide a description of the major education and training programs considered Federal investments in human

capital used in the "Other Data Info" tab (SFFAS No. 8, par. 94).

#### Answer

Federal Student Aid - The Office of Federal Student Aid administers need based financial assistance programs for students pursuing postsecondary education and makes available federal grants, direct loans, guaranteed loans, and work study funding to eligible undergraduate and graduate students.

Office of Elementary and Secondary Education - The Office of Elementary and Secondary Education provides leadership, technical assistance, and financial support to state and local educational agencies for the maintenance and improvement of preschool, elementary, and secondary education. Financial assistance programs support services for children in high-poverty schools, institutions for neglected and delinquent children, homeless children, certain Native American children, children of migrant families, and children who live on or whose parents work on Federal property.

Office of Special Education and Rehabilitative Services - The Office of Special Education and Rehabilitative Services supports state and local programs that assist in educating children, youth and adults with special needs to increase their level of employment, productivity, independence, and integration into the community. Funding is also provided for research to improve the quality of their lives.

Other Departmental Programs - Other Departmental Programs include, but are not limited to, making strategic investments in educational practices; funding research, evaluations, and information dissemination; enabling students with limited English proficiency to become proficient in English; funding vocational and technical education; and promoting reform, innovation and improvement in postsecondary education.

# U.S. Department of Education FY 2014 Closing Package Financial Statements Additional Note No. 1 – Closing Package Financial Statement Requirements

The Budget and Accounting Procedures Act of 1950 allows the Secretary of the Treasury to stipulate the format and requirements of executive agencies to furnish financial and operational information to the President and the Congress to comply with the Government Management Reform Act of 1994 (GMRA) (Pub. L. No. 103-356), which requires the Secretary of the Treasury to prepare and submit annual audited financial statements of the executive branch. The Secretary of the Treasury developed guidance in the U.S. Department of the *Treasury's Treasury Financial Manual* (TFM) Volume I, Part 2, Chapter 4700 to provide agencies with instructions to meet the requirements of GMRA. The TFM Chapter 4700 requires agencies to:

- 1. Reclassify all line items and amounts on the comparative audited consolidated, department-level balance sheets, statement of net cost/income statement, statement of changes in net position, statement of social insurance, statements of changes in social insurance amounts, and statement or note on custodial activity, if applicable, to the closing package financial statements;
- 2. List closing package financial statement line item amounts identified as Federal by trading partner and amount;
- 3. Report notes information that is based on the Reclassified Balance Sheet line items and other notes information required to meet FASAB standards; and
- 4. Report other data information that is not based on the Reclassified Balance Sheet line items and other data noted information required to meet FASAB standards.

# **Summary of Significant Accounting Policies Reporting Entity and Programs**

The United States (U.S.) Department of Education (the Department), a cabinet-level agency of the Executive Branch of the U.S. Government, was established by Congress under the *Department of Education Organization Act* (Public Law 96-88), which became effective on May 4, 1980. The mission of the Department is to promote student achievement and preparation for global competitiveness by fostering educational excellence and ensuring equal access. The Department is responsible for administering federal student loan and grant programs, as discussed below.

**Federal Student Loan Programs.** The Department administers direct loan, loan guarantee and other student aid programs to help students and their families finance the cost of postsecondary education. These include the William D. Ford Federal Direct Loan Program (Direct Loan) and the Federal Family Education Loan Program (FFEL).

The Direct Loan Program, added to the *Higher Education Act of 1965* (HEA) in 1993 by the *Student Loan Reform Act of 1993*, authorizes the Department to make loans through participating schools for eligible undergraduate and graduate students and their parents. The FFEL Program, authorized by the HEA, operated through state and private nonprofit guaranty agencies which provided loan guarantees and interest subsidies on loans made by private lenders to eligible students. The *SAFRA Act*, formerly the *Student Aid and Fiscal Responsibility Act* that was included in the *Health Care and Education Reconciliation Act of 2010* (HCERA), effective July 1, 2010, stated that no new FFEL loans would be made.

The Department also administers loans for the Historically Black Colleges and Universities (HBCU) Capital Financing Program, the Health Education Assistance Loan Program (HEAL), the Teacher Education Assistance for College and Higher Education Grant Program (TEACH), along with low-interest loans to institutions of higher education for the building and renovating of their facilities through the facilities loan programs.

**Grant Programs.** The Department administers numerous grant programs, including: grants to state and local entities for elementary and secondary education; special education and rehabilitative services grants; grants to support institutions of higher education; educational research and improvement grants; grants to assist low-income and first-generation college students to prepare for and transition into college; grants to improve our global awareness and competitiveness; and fellowships for college and graduate students. Among the largest K-12 discretionary grants are the Federal TRIO Program (TRIO), Race to the Top, and Teacher Incentive Fund. Among the largest formula grant programs are the Title I grants issued under the *Elementary and Secondary Education Act of 1965*, as amended, grants issued under the *Individuals with Disabilities Education Act* (IDEA), and grants to local education agencies.

The Department also administers the Federal Pell Grant (Pell Grant) Program to provide need-based grants that provide access to postsecondary education for low-income undergraduate and certain post-baccalaureate students.

# **Major Program Offices**

The Department has three major program offices that administer loan and grant programs. They are:

- Federal Student Aid (FSA)
- Office of Elementary and Secondary Education (OESE)
- Office of Special Education and Rehabilitative Services (OSERS)

In addition, there are other offices that administer programs including the Office of Career, Technical, and Adult Education (OCTAE), Office of Postsecondary Education (OPE), Institute of Education Sciences (IES), Office of English Language Acquisition (OELA), Office of Innovation and Improvement (OII), Office of Management, Office for Civil Rights (OCR), and Hurricane Education Recovery (HR) activities.

# **Basis of Accounting and Presentation**

These financial statements have been prepared to report the financial position, net cost of operations, changes in net position, and budgetary resources of the Department, as required by the *Chief Financial Officers Act of 1990* and the *Government Management Reform Act of 1994*. The financial statements were prepared from the books and records of the Department, in accordance with Generally Accepted Accounting Principles (GAAP) accepted in the U.S. for federal entities, issued by the Federal Accounting Standards Advisory Board (FASAB), and the Office of Management and Budget (OMB) Circular No. A-136, *Financial Reporting Requirements*, as revised. These financial statements are different from the financial reports prepared by the Department pursuant to OMB directives that are used to monitor and control the use of budgetary resources. FSA also issues audited stand-alone financial statements which are included in their annual report.

The Department's financial statements should be read as a component of the U.S. Government, a sovereign entity. One of the many implications of this is that the liabilities cannot be liquidated without legislation providing resources and legal authority to do so.

The accounting structure of federal agencies is designed to reflect both accrual and budgetary accounting transactions. Under the accrual method of accounting, revenues are recognized when earned and expenses are recognized when a liability is incurred, without regard to receipt or payment of cash. Budgetary accounting facilitates compliance with legal constraints and controls over the use of federal funds.

Intradepartmental transactions and balances have been eliminated from the consolidated financial statements.

# **Intragovernmental Transactions**

The Department's financial activities are interlinked and dependent upon the financial activities of the centralized management functions of the federal government. Due to financial regulation and management control by OMB and the U.S. Department of Treasury (Treasury), operations may not be conducted and financial positions may not be reported as they would if the Department were a separate, unrelated entity.

# **Accounting for Federal Credit Programs**

The purpose of the *Federal Credit Reform Act of 1990* (FCRA) is to record the lifetime cost of direct loans and loan guarantees at the time the loan is disbursed. Under the FCRA, subsidy cost is estimated using the net present value of future cash flows to and from the Department. In accordance with the FCRA, credit programs either estimate a cost to the government (a "positive" subsidy to borrowers), breakeven (zero subsidy cost), or estimate a negative subsidy cost. Credit programs have negative subsidies when the estimated cost to the government of providing credit is less than the estimated collections from repayments, interest, and fees, on a present value basis. The estimates are affected by the cost of borrowing (at Treasury's rates) and the estimated risk of default. In practical terms, a negative subsidy occurs when the interest rate and/or fees charged to the borrower are more than sufficient to cover the costs of the risk of default.

The cost of direct loan and loan guarantee programs are budgeted and tracked by the fiscal year in which the loan award is made or the funds committed. Such a grouping of loans or

guarantees are referred to as a "cohort". A cohort is a grouping of direct loans obligated or loan guarantees committed by a program in the same year even if disbursements occur in subsequent years.

In order to account for the change in the net present value of the loan portfolio over time, the subsidy cost is "amortized" each year. Amortization of subsidy is interest expense on debt with Treasury minus interest income from borrowers and interest on uninvested fund balance with Treasury. It is calculated as the difference between interest revenue and interest expense. Amortized amounts are recognized as an increase or decrease in interest income. Amortization accounts for the differences in interest rates, accruals, and cash flows over the life of a cohort, insuring that cost is reflected in subsidy estimates and re-estimates. For direct loans, the allowance for subsidy is adjusted with the offset to interest revenue. For guaranteed loans, the liability for loan guarantees is adjusted with the offset to interest expense.

The FCRA establishes the use of Program, Financing, and General Fund Receipt Accounts for loan guarantees committed and direct loans obligated after September 30, 1991. The Program Account is a budget account that receives and obligates appropriations to cover the subsidy cost of a direct loan or loan guarantee and disburses the subsidy cost to the Financing Account. A Program Account also receives appropriations for administrative expenses. Financing accounts borrow funds from Treasury, make direct loan disbursements, pay claims on guaranteed loans, collect principal and interest from borrowers, earn interest from Treasury on any uninvested funds, and transfer excess subsidy to Treasury's General Fund Receipt Account. Appropriations for new subsidy and subsidy re-estimates are received in Program Accounts and transferred to the Financing Accounts, Financing Accounts borrow funds from Treasury, make direct loan disbursements, pay claims on guaranteed loans, collect principal and interest from borrowers, collect fees and other program income, pay interest to Treasury on borrowings, collect interest from Treasury on uninvested funds, collect funds for positive subsidy or transfer excess or negative subsidy to a General Fund Receipt Account. The Financing Account receives the subsidy cost payment from the Program Account. The General Fund Receipt Account, a budget account, is used by Treasury for the receipt of amounts paid from the Financing Account when there are negative subsidies for original cost estimates or downward re-estimates of prior subsidy costs. The budgetary resources and activities for these accounts are presented separately in the Combined Statement of Budgetary Resources (SBR) and the Budget of the United States Government and are excluded from the determination of the budget deficit or surplus. Program accounts are classified as either budgetary or non-budgetary in the Combined SBR. The budgetary accounts include the Program and Liquidating Accounts, while Financing Accounts are non-budgetary. FCRA establishes Liquidating Accounts for activity relating to any loan guarantees committed or direct loans obligated before October 1, 1991.

Components of subsidy costs for loans and guarantees include defaults (net of recoveries); contractual payments to third-party private loan collectors who receive a set percentage of amounts collected; and, as an offset, origination and other fees collected. For direct loans, the difference between interest rates incurred by the Department on its borrowings from Treasury and interest rates charged to particular borrowers is also subsidized (or may provide an offset to subsidy if the Department's rate is less). The corresponding interest subsidy in loan guarantee programs is the payment of interest supplements to third-party lenders in order to pay down the interest rates on loans made by those lenders.

As of July 1, 2014, consistent with the *Consolidated Appropriations Act, 2014* (P.L. 113-76), the Department of Health and Human Services (HHS) transferred all HEAL program loans to the Department. This was accomplished through Treasury guidance on obligated and non-obligated balance transfers.

#### **Use of Estimates**

Department management is required to make certain estimates while preparing consolidated financial statements in conformity with GAAP. These estimates are reflected in the assets, liabilities, net cost, and net position of the financial statements and may differ from actual results. The Department's estimates are based on management's best knowledge of current events, historical experiences, and other assumptions that are believed to be reasonable under the circumstances. Significant estimates reported on the financial statements include allocation of Department administrative overhead costs, annual credit program re-estimates and modifications of subsidy cost (general program administration cost), as well as grant liability and advance accruals.

## **Entity and Non-Entity Assets**

Assets are classified as either entity or non-entity assets. Entity assets are those that the Department has authority to use for its operations. Non-entity assets are those held by the Department but are not available for use in its operations. Non-entity assets are offset by liabilities to third parties and have no impact on net position. The Department combines its entity and non-entity assets on the Balance Sheet and discloses its non-entity assets in the notes.

# **Fund Balance with Treasury**

Fund Balance with Treasury includes five types of funds in the Department's accounts with Treasury available to pay current liabilities and finance authorized purchases, as well as funds restricted until future appropriations are received: (1) General funds consist of expenditure accounts used to record financial transactions arising from congressional appropriations, as well as receipt accounts; (2) Revolving funds, which include Financing Accounts, manage the activity of self-funding programs whether through fees, sales or other income; (3) Special funds are receipts from sources that are authorized by law for a specific purpose - these receipts are available for expenditure for special programs; (4) Trust funds are used for the acceptance and administration of funds contributed from public and private sources and programs and are in cooperation with other federal and state agencies or private donors; and (5) Other funds include deposit funds, receipt funds, and clearing accounts. Treasury processes cash receipts and cash disbursements for the Department. The Department's records are reconciled with Treasury's.

#### **Accounts Receivable**

Accounts Receivable are amounts due to the Department from the public and other federal agencies. Receivables from the public result from overpayments to recipients of grants and other financial assistance programs, as well as disputed costs resulting from audits of educational assistance programs. Amounts due from federal agencies result from reimbursable agreements entered into by the Department with other agencies to provide various goods and services. Accounts receivable are reduced to net realizable value by an allowance for uncollectible amounts. The estimate of an allowance for loss on uncollectible accounts is based on the Department's experience in the collection of receivables and an analysis of the outstanding balances.

Accounts Receivable are established as claims to cash or other assets against other entities. At the Department, accounts receivable originate through legal provisions or program requirements to return funds due to noncompliant program administration, regulatory requirements, or individual service obligations. Further, the Department utilizes the opportunity to reduce the accounts receivable balances through the Treasury referral program.

The Department calculates the allowance for loss from uncollectable accounts receivable by applying a collection rate based on historical trends against gross accounts receivable. The

collection rate is determined based on a rolling average of actual collection rates for the prior seven fiscal years.

#### **Cash and Other Monetary Assets**

Cash and Other Monetary Assets consist of guaranty agency reserves that represent the federal government's interest in the net Federal Fund assets of state and nonprofit FFEL Program guaranty agencies. Guaranty agency Federal Fund reserves are classified as non-entity assets with the public and are offset by a corresponding liability due to Treasury. Guaranty agency reserves include initial federal start-up funds, receipts of federal reinsurance payments, insurance premiums, guaranty agency share of collections on defaulted loans, investment income, administrative cost allowances, and other assets.

Sections 422A and 422B of the HEA required FFEL guaranty agencies to establish a Federal Student Loan Reserve Fund (Federal Fund) and an Operating Fund. The Federal Fund and the non-liquid assets developed or purchased by a guaranty agency, in whole or in part with federal funds, are the property of the U.S. and are reflected in the *Budget of the United States Government*. Ownership by the federal government is independent of the actual control of the assets.

The Department disburses funds to a guaranty agency. A guaranty agency, through its Federal Fund, pays lender claims and pays default aversion fees into its own Operating Fund. The Operating Fund is the property of the guaranty agency and is used to fulfill responsibilities that include repaying money borrowed from the Federal Fund and performing default aversion and collection activities. Payments made to the Department from Guaranty Agency Federal Fund through a statutory recall or agency closures represent capital transfers and are credited to the Department's Fund Balance with Treasury account.

# Credit Program Receivables, Net and Liabilities for Loan Guarantees

The financial statements reflect the Department's estimate of the long-term cost of direct and guaranteed loans in accordance with the FCRA. Loans and interest receivable are valued at their gross amounts less an allowance for the present value of amounts not expected to be recovered and thus having to be subsidized—called an "allowance for subsidy." The difference between the gross amount and the allowance for subsidy is the present value of the cash flows to, and from, the Department that are expected from receivables over their projected lives. Similarly, liabilities for loan guarantees are valued at the present value of the cash outflows from the Department less the present value of related inflows. The estimated present value of net long-term cash outflows of the Department for subsidized costs is net of recoveries, interest supplements, and offsetting fees. The Department also values all pre-1992 loans, loan guarantees, and direct loans at their net present values. If the Liability for Loan Guarantees is positive, the amount is reported as a component of Credit Program Receivables, Net.

The Liability for Loan Guarantees presents the net present value of all future cash flows from currently insured FFEL loans including claim payments, interest assistance, allowance payments, and recoveries from assigned loans. Guaranteed loans that default are initially turned over to guaranty agencies for collection. Defaulted FFEL loans are accounted for and reported in the financial statements under credit reform rules, similar to direct loans, although they are legally not direct student loans. Negative balances are reported as a component of Credit Program Receivables Net. Credit Program Receivables, Net includes default FFEL loans owned by the Department and held by the Department or guaranty agencies. In most cases, after approximately four years, defaulted guaranteed loans not in repayment are turned over to the Department for collection.

Credit program receivables for activities under the temporary loan purchase authority include the present value of future cash flows related to purchased loans. Subsidy was transferred, which may have been prior to loan purchase, and is recognized as subsidy expense on the Balance Sheet and Statement of Net Cost. The cash flows of these authorities also include inflows and outflows associated with the underlying or purchased loans and other related activities, including any positive or negative subsidy transfers.

# Property and Equipment, Net and Leases

The Department capitalizes single items of property and equipment with a cost of \$50,000 or more that have an estimated useful life of two years or more. Additionally, the Department capitalizes bulk purchases of property and equipment with an aggregate cost of \$500,000 or more. A bulk purchase is defined as the purchase of like items related to a specific project, or the purchase of like items occurring within the same fiscal year that have an estimated useful life of at least two years. Property and equipment are depreciated over their estimated useful lives using the straight-line method of depreciation. Internal Use Software meeting the above cost and useful life criteria is also capitalized. Internal Use Software is either purchased off the shelf, internally developed, or contractor developed solely to meet the Department's needs.

The Department adopted the following useful lives for its major classes of depreciable property and equipment:

#### **Depreciable Property and Equipment**

(In Years)

Major Class	Useful Life
Information Technology, Internal Use Software, and Telecommunications Equipment	3
Furniture and Fixtures	5

The Department leases buildings, along with information technology and telecommunications equipment, as part of a contractor-owned, contractor-operated services contract. Lease payments associated with the equipment have been determined to be operating leases and, as such, are expensed as incurred. The non-cancellable lease term is one year, with the Department holding the right to extend the lease term by exercising additional one-year options.

#### Liabilities

Liabilities represent actual and estimated amounts to be paid as a result of transactions or events that have already occurred. However, no liabilities can be paid by the Department without budget authority. Liabilities for which an appropriation has not been enacted are classified as liabilities not covered by budgetary resources, and there is no certainty that an appropriation will be enacted. The government, acting in its sovereign capacity, can abrogate liabilities that arise from activities other than contracts. FFEL Program and Direct Loan Program liabilities are entitlements covered by permanent indefinite budget authority.

# **Accounts Payable**

Accounts Payable include amounts owed by the Department for goods and services received from other entities, as well as payments not yet processed.

#### **Debt**

The Department borrows from Treasury to provide funding for the Direct Loan, FFEL, TEACH, and other loan programs. The liability to Treasury from borrowings represents unpaid principal at year-end. The Department repays the principal based on available fund balances. Interest on the debt is calculated and paid at fiscal year-end using rates set by Treasury. These are rates generally fixed based on the rate for 10-year Treasury securities. In addition, the Federal Financing Bank (FFB) holds bonds issued by a designated bonding authority, on behalf of the

Department, for the HBCU Capital Financing Program. The Department reports the corresponding liability for full payment of principal and accrued interest on bonds as a payable to the FFB.

# **Accrued Grant Liability**

Disbursements of grant funds are recognized as expenses at the time of disbursement. Some grant recipients incur allowable expenditures as of the end of an accounting period but have not yet been reimbursed by the program. The Department will accrue a liability for these allowable expenditures incurred that have not yet been reimbursed. The amount is estimated using statistical sampling, as well as information on recent grant expenditures and unliquidated balances.

#### Other Liabilities

Other Liabilities include liabilities in miscellaneous receipts and capital transfers. Liabilities in miscellaneous receipt accounts are recorded for downward subsidy re-estimates that are accrued at year end and for amounts of future capital transfers from Liquidating Accounts. Miscellaneous receipt accounts are a mechanism used by Treasury to facilitate the elimination of receivables and payables within the government, and the Department follows the guidance for using miscellaneous receipt accounts in recording specific events. Upon execution of a downward re-estimate or an actual capital transfer, the liabilities in the miscellaneous receipt accounts are satisfied and removed from the general ledger. Liabilities in miscellaneous receipt accounts are unfunded liabilities.

#### **Net Cost**

Net cost consists of gross costs and earned revenue. Gross costs and earned revenue are classified as intragovernmental (exchange transactions between the Department and other entities within the federal government) or with the public (exchange transactions between the Department and non-federal entities).

Net program costs are gross costs less revenue earned from activities. The Department determines gross cost and earned revenue by tracing amounts back to the specific program office. Administrative overhead costs of funds unassigned are allocated based on full-time employee equivalents of each program.

# **Interest Expense and Interest Revenue**

The Department accrues interest receivable and records interest revenue on performing Direct Loans and FFEL loans purchased by the Department. The Department recognizes interest income when interest is accrued on loans to the public for the Direct Loan, FFEL, and TEACH Programs. FFEL Financing and Liquidating Accounts accrue interest as part of allowance for subsidy. Interest due from borrowers is accrued at least monthly and is satisfied upon collection or capitalization into the loan principal.

Interest expense and interest revenue are equal for all credit programs due to subsidy amortization. If interest revenue is greater than expense or interest expense is greater than revenue, the difference is recorded to revenue with the offset to allowance for subsidy. Subsidy amortization is required by the FCRA and accounts for the difference between interest accruals and interest cash flows.

#### **Net Position**

Net position consists of unexpended appropriations and cumulative results of operations. Unexpended appropriations include undelivered orders and unobligated balances, except for amounts in Financing Accounts, Liquidating Accounts, and trust funds. Cumulative results of

operations represent the net difference since inception between (1) expenses and (2) revenues and financing sources.

#### **Personnel Compensation and Other Employee Benefits**

**Annual, Sick, and Other Leave.** The liability for annual leave, compensatory time off, and other vested leave is accrued when earned and reduced when taken. Each year, the accrued annual leave account balance is adjusted to reflect current pay rates. Sick leave and other types of non-vested leave are expensed as taken. Annual leave earned but not taken, within established limits, is funded from future financing sources.

**Retirement Plans and Other Retirement Benefits.** Employees participate in either the Civil Service Retirement System (CSRS), a defined benefit plan, or the Federal Employees Retirement System (FERS), a defined benefit and contribution plan. For CSRS employees, the Department contributes a fixed percentage of pay.

FERS consists of Social Security, a basic annuity plan, and the Thrift Savings Plan. The Department and the employee contribute to Social Security and the basic annuity plan at rates prescribed by law. In addition, the Department is required to contribute to the Thrift Savings Plan a minimum of 1 percent per year of the basic pay of employees covered by this system, match voluntary employee contributions up to 3 percent of the employee's basic pay, and match one-half of contributions between 3 percent and 5 percent of the employee's basic pay. For FERS employees, the Department also contributes the employer's share of Medicare.

Contributions for CSRS, FERS, and other retirement benefits are insufficient to fund the programs fully and are subsidized by the Office of Personnel Management (OPM). The Department imputes its share of the OPM subsidy, using cost factors provided by OPM, and reports the full cost of the programs related to its employees.

**Federal Employees' Compensation Act.** The *Federal Employees' Compensation Act* (FECA) provides income and medical cost protection to covered federal civilian employees injured on the job, employees who have incurred work-related occupational diseases, and beneficiaries of employees whose deaths are attributable to job-related injuries or occupational diseases. The FECA Program is administered by the U.S. Department of Labor (DOL), which pays valid claims and subsequently seeks reimbursement from the Department for these paid claims.

The FECA liability consists of two components. The first component is based on actual claims paid and recognized by the Department as a liability. Generally, the Department reimburses DOL within two to three years once funds are appropriated. The second component is the estimated liability for future benefit payments based on unforeseen events, such as death, disability, medical, and miscellaneous costs as determined by DOL annually.

#### Reclassifications

Certain reclassifications were made to the Fiscal Year (FY) 2013 financial statements and notes to conform to the current year presentation. These changes had no effect on total assets, liabilities, net position, net cost of operations, or budgetary resources. The *American Recovery and Reinvestment Act of 2009* (ARRA) funding is winding down, thereby diminishing the materiality of the program. Therefore, the separate ARRA presentation on the financial statements and note disclosures has been removed. The Consolidated Statement of Net Cost and related note disclosures for FY 2013 have been reclassified to present ARRA funding under the specific program offices distributing the funding.
